

**1. COMPOSITION/INFORMATION ON INGREDIENTS**

Product Name: LE 135
 Catalog Number: sc-204053
 Chemical Name: 4-(7,8,9,10-Tetrahydro-5,7,7,10,10-pentamethyl-5H-benzo[e]naphtho[2,3-b][1,4]diazepin-13-yl)benzoic acid
 Supplier: Santa Cruz Biotechnology, Inc.
 2145 Delaware Ave.
 Santa Cruz, California 95060
 800.457.3801 or 831.457.3800
 Emergency: ChemWatch
 Within the US & Canada: 877-715-9305
 Outside the US & Canada: +800 2436 2255
 (1-800-CHEMCALL) or call +613 9573 3112

2. PHYSICAL AND CHEMICAL PROPERTIES

Chemical Formula: $C_{29}H_{30}N_2O_2$
 CAS Number: 155877-83-1
 Molecular Weight: 438.56 g/mol

3. HANDLING AND STORAGE

Use in a chemical fume hood, with air supplied by an independent system. Avoid inhalation, contact with eyes, skin and clothing. Avoid prolonged or repeated exposure. Material should be stored in a tightly sealed container under the storage condition stated on the Product Information sheet and on the vial label.

4. STABILITY AND REACTIVITY

Stability: Stable under normal handling conditions.
 Conditions to avoid: (Sodium azide) Avoid contact with metals, acids, acid chlorides, chromyl chloride, hydrazine, bromine, carbon disulfide, dimethyl sulphate, and dibromomalonitrile (azide can react with such materials to form explosive products).
 Hazardous Combustion/Decomposition of Product: May emit toxic gases such as carbon dioxide, carbon monoxide and nitrogen oxide upon thermal decomposition.

5. HAZARDS IDENTIFICATION

Caution: Substance not yet fully tested. Exposure may cause irritation to eyes, mucous membranes, upper respiratory tract and skin.
 Product contains <0.1% sodium azide as a stabilising agent.

6. TOXICOLOGICAL INFORMATION

To the best of our knowledge, the chemical, physical and toxicological properties have not been fully investigated.
 RTECS No: VYB050000 (Sodium azide)
 CAS No: [26628-22-8] (Sodium azide)
 Target Organs: Eyes, respiratory system, skin. Nerves, heart (sodium azide)
 Toxicity Data: Oral man 143 mg/kg (LDLo: JTCTDW 24: 339, 1986); oral woman 14 mg/kg (LDLo: JFSCAS 35: 193, 1990) (sodium azide).

Only selected Registry of Toxic Effects of Chemical Substances (RTECS) data is presented above. See actual entry in RTECS for complete information.

7. REGULATORY INFORMATION

Classification: Caution: Substance not yet fully tested.
 Safety Phrases: S36/37/38 - Wear suitable protective clothing, gloves and eye/face protection.
 S45 - In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Risk Phrases: R36/37/38 - Irritating to eyes, respiratory system and skin.
 R28, 32, 50/53 - Very toxic if swallowed. Contact with acids liberates very toxic gas. Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment (sodium azide).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Wear appropriate chemical resistant gloves, safety goggles and other protective clothing to prevent contact with eyes and skin. Laboratory should be equipped with a safety shower and eye wash station. Avoid prolonged or repeated exposure. Do not breathe dust. Do not get in eyes, on skin or on clothing. Wash thoroughly after handling.

9. FIRST-AID MEASURES

In cases of SKIN CONTACT: Wash with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes and wash before wearing. In case of eye contact, flush with copious amounts of water for at least 15 minutes.
 In cases of INHALATION: Remove to fresh air and monitor breathing. If breathing becomes difficult, give oxygen. If breathing stops, give artificial respiration.
 In cases of INGESTION: If swallowed, rinse mouth out with water, contact local poison centre and call a physician.

10. FIRE-FIGHTING MEASURES:

Extinguishing Media: Material is non-combustible. Use extinguishing media appropriate to surrounding fire conditions.
 Unusual Fire and Explosive Hazards: May emit toxic gases upon thermal decomposition. Avoid contact with metals, acids, acid chlorides, chromyl chloride, hydrazine, bromine, carbon disulfide, dimethyl sulphate and dibromomalonitrile (azide can react with such materials to form explosive products).
 Special Fire-Fighting Procedures: Wear protective clothing to prevent contact with skin and eyes.

11. ACCIDENTAL RELEASE MEASURES

Wear appropriate protective clothing. Cover spillage with suitable absorbent material. Using non-spark tools, sweep up material and place in an appropriate container. Decontaminate spill site with with 10% caustic solution and ventilate area until after disposal is complete. Hold all material for appropriate disposal as described under DISPOSAL CONDITIONS.

12. ECOLOGICAL INFORMATION

Data not yet available - treat as potentially toxic if released into the environment.

13. DISPOSAL CONDITIONS

As specific country, federal, state and local environmental regulations are varied and change frequently, we recommend that you contact your local department for Health Services for information on the correct disposal of this product.

14. TRANSPORT INFORMATION

Not applicable for this product.

15. OTHER INFORMATION

The above information is believed to be correct but does not purport to be complete and should be used only as a guide. The burden of safe use of this material rests entirely with the user.
