

## Inside-Out Insect Control

### Cheval International

Inside-Out Insect Control is a delicious combination of Brewer's Yeast, Garlic, & Apple Cider Vinegar. This healthy additive has been hailed by equestrians as the ultimate weapon against biting insects. Yeast, Garlic and Apple Cider Vinegar have each individually been recognized for decades as nature's way of keeping those biting insects from feasting on horses. Cheval is the first to combine all three into a formula so delicious your horse will gladly eat them. Modern discoveries about the health benefits of Yeast (great for coat and hooves), and Garlic (disease resistance and general health benefits too numerous to list), and Apple Cider Vinegar (thought to aid in the prevention of colic and sandstones) make Inside-Out beneficial to all horses all year round! The added benefit of keeping insect bites down, makes this one of the most popular feed supplements we've ever developed.

Directions For Use: Add approximately 1/4 cup to horse's grain DAILY.

Ingredients: Apple Cider Vinegar, Western South Dakota chopped wheat hay, cane molasses, primary grown yeast, brewer's yeast, garlic powder, vegetable oil,
