### Drug Facts

<table>
<thead>
<tr>
<th>Active ingredient</th>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>Povidone-iodine, 7.5% - equal to 0.75% available iodine</td>
<td>Antiseptic</td>
</tr>
</tbody>
</table>

### Uses

§ for preparation of the skin prior to surgery

§ helps to reduce bacteria that potentially can cause skin infection

§ for handwashing to reduce bacteria on the skin

§ significantly reduces the number of microorganisms on the hands and forearms prior to surgery or patient care.

### Warnings

For external use only

Do not use this product

§ in the eyes

§ on food-producing animals

When using this product

§ do not heat prior to application

§ prolonged exposure to wet solution may cause irritation or, rarely, severe skin reactions.

§ in pre-operative prepping, avoid “pooling” beneath the animal.

Stop use and ask a doctor

§ if irritation and redness develop

§ in rare instances of local irritation or sensitivity

Keep out of reach of children. If swallowed, get medical help or contact a Poison Control Center right away.

### Directions

Ax Surgical hand scrub:

§ wet hands with water

§ pour about 3 cc or teaspoons of scrub on the palms of the hands and spread over both hands

§ without adding more water, scrub thoroughly for about five minutes

§ use a brush if desired

§ clean thoroughly under fingernails

§ add a little water and develop copious suds

§ rinse thoroughly under running water

§ repeat the entire procedure using another 3 cc of scrub

Bx Patient prevoperative skin preparation:

§ after the surgical area is clipped, wet it with water

§ apply scrub so cc is sufficient to cover an area of 12 square inches

§ develop lather and scrub thoroughly for about 3 minutes

§ rinse off using sterile gauze saturated with water

§ the area may then be painted with BETADINE® Solution Veterinary and allowed to dry.

### Other information

§ store at psºC to euºF with excursions permitted between osº kvºC to vsº kvºF

§ store in original container

### Inactive ingredients

ammonium nonoxynol-9, sulfates, purified water, sodium hydroxide
**A. Surgical hand scrub:**

- wet hands with water
- pour about 5 cc (1 teaspoonful) of Scrub on the palm of the hand and spread over both hands
- without adding more water, scrub thoroughly for about five minutes
- use a brush if desired. Clean thoroughly under fingernails
- add a little water and develop copious suds. Rinse thoroughly under running water
- repeat the entire procedure using another 5 cc of Scrub

**B. Patient pre-operative skin preparation:**

- after the surgical area is clipped, wet it with water
- apply Scrub (1 cc is sufficient to cover an area of 20-30 square inches), develop lather and scrub thoroughly for about 5 minutes
- rinse off using sterile gauze saturated with water
- the area may then be painted with BETADINE Solution Veterinary and allowed to dry

**Other information**

- store at 25°C (77°F): excursions permitted between 15°-30°C (59°-86°)
- store in original container

**Inactive ingredients**

- ammonium nonoxynol-4-sulfate, nonoxynol-9, purified water, sodium hydroxide
