# IL-12 p70 (EQ-7): sc-74151

The Power to Question

## **BACKGROUND**

The interleukins (ILs) are a broad family of well characterized cytokines, primarily of hematopoietic cell origin. As new cytokines are molecularly characterized, they are assigned an IL number to maintain a standard nomenclature. ILs are secreted by immune cells that regulate a wide range of immune system functions. IL-12 is secreted by macrophages and human B-lymphoblastoid cells in response to antigenic stimulation. IL-12 is responsible for the differentiation of naive CD4+ T cells into type 1 helper T cells that produce interferon- $\gamma$  (IFN- $\gamma$ ). It also activates production of tumor necrosis factor  $\alpha$  (TNF $\alpha$ ) from T and natural killer (NK) cells, and it inhibits IL-4 mediated suppression of IFN- $\gamma$ . IL-12 also has anti-angiogenic activity, since the production of IFN- $\gamma$  increases the production of inducible protein-10 (IP-10). IL-12 p40 represents a subunit of IL-12 that is induced by several pathogens. IL-12 p70 is a subunit of IL-12 that is controlled through both the p35 and p40 genes in a cell type-specific fashion.

# **CHROMOSOMAL LOCATION**

Genetic locus: II12a (mouse) mapping to 3 E1, II12b (mouse) mapping to 11 B1.1.

#### **SOURCE**

IL-12 p70 (EQ-7) is a rat monoclonal antibody raised against full length recombinant IL-12 of mouse origin.

## **PRODUCT**

Each vial contains 100  $\mu g$   $lgG_1$  in 1.0 ml of PBS with < 0.1% sodium azide and protein stabilizer.

#### **APPLICATIONS**

IL-12 p70 (EQ-7) is recommended for detection of IL-12 p70 heterodimer of mouse origin by WB (non-reducing), ELISA; non cross-reactive with IL-12 p40.

Molecular Weight of IL-12 p70: 70 kDa.

# **SELECT PRODUCT CITATIONS**

1. Rochet, E., et al. 2019. Type I ROP16 regulates retinal inflammatory responses during ocular toxoplasmosis. PLoS ONE 14: e0214310.

## **STORAGE**

Store at 4° C, \*\*DO NOT FREEZE\*\*. Stable for one year from the date of shipment. Non-hazardous. No MSDS required.

## **RESEARCH USE**

For research use only, not for use in diagnostic procedures.

# **PROTOCOLS**

See our web site at www.scbt.com for detailed protocols and support products.
