BACKGROUND
Belonging to the Poxviridae family, the parapoxvirus genus includes large, oval double-stranded DNA viruses. Their unique spiral coat distinguishes them from other poxviruses. The Orf Virus belongs to the parapoxvirus genus, which also includes milker’s nodule virus. The surface tubules of the Orf Virus form long crisscross designs that are observable on negatively stained preparations by electron microscopy. Orf Virus infection is widespread in sheep and goats, but can also be transmitted through fomites or direct contact inoculation to humans, especially those within farming communities and meat handlers. In humans, Orf infection presents as reddish weeping nodules on the dorsum of the hands and fingers and occasionally involves lymph nodes. In sheep and goats, symptoms include papules and pustules on the lips and muzzle. Generally, Orf infection is benign and self-limiting, however it can be progressive and life-threatening in immune-compromised hosts.

REFERENCES

SOURCE
Orf Virus (6E8) is a mouse monoclonal antibody raised against a lysate of orf-11 infected fetal muscle cells of lamb origin.

PRODUCT
Each vial contains 200 µg IgG₂κ kappa light chain in 1.0 ml of PBS with < 0.1% sodium azide and 0.1% gelatin.

APPLICATIONS
Orf Virus (6E8) is recommended for detection of the envelope protein of all Orf Virus strains by Western Blotting (starting dilution 1:200, dilution range 1:100-1:1000) and solid phase ELISA (starting dilution 1:30, dilution range 1:30-1:3000).

RECOMMENDED SUPPORT REAGENTS
To ensure optimal results, the following support reagents are recommended:
1) Western Blotting: use m-IgGκ BP-HRP: sc-516102 or m-IgGκ BP-HRP (Cruz Marker): sc-516102-CM (dilution range: 1:1000-1:10000), Cruz Marker™ Molecular Weight Standards: sc-2035, UltraCruz® Blocking Reagent: sc-516214 and Western Blotting Luminol Reagent: sc-2048.

STORAGE
Store at 4° C, **DO NOT FREEZE**. Stable for one year from the date of shipment. Non-hazardous. No MSDS required.

RESEARCH USE
For research use only, not for use in diagnostic procedures.

PROTOCOLS
See our web site at www.scbt.com for detailed protocols and support products.
