ASS1 (E-12): sc-365475

**BACKGROUND**

ASS1, also known as argininosuccinate synthase or citrulline-aspartate ligase, belongs to the argininosuccinate synthase family. ASS1 is an urea cycle enzyme with a tetrameric structure composed of identical subunits. It is important to the urea cycle as it catalyzes the important second last step in the arginine biosynthetic pathway. A deficiency of ASS1 causes citrullinemia (CTLN1), an autosomal recessive disease which is characterized by severe vomiting spells and mental retardation.

**REFERENCES**

**CHROMOSOMAL LOCATION**

Genetic locus: ASS1 (human) mapping to 9q34.11; Ass1 (mouse) mapping to 2 B.

**SOURCE**

ASS1 (E-12) is a mouse monoclonal antibody raised against amino acids 1-231 mapping at the N-terminus of ASS1 of human origin.
