

ImmunoCruz® ABC Kit: sc-516216

PRODUCT

The ImmunoCruz® ABC Kit includes 0.5 ml each avidin and biotin horseradish peroxidase reagents (Reagent A and Reagent B). One ImmunoCruz® ABC Kit contains sufficient reagent for 200 slides. It is recommended for use with the Avidin-Biotin Complex (ABC) staining method for immunoperoxidase staining of tissues (IHC) or cells (ICC). The ImmunoCruz® ABC Kit provides increased sensitivity with decreased background compared to traditional ABC kits. Tissue sections are first incubated with a target-specific primary antibody of choice. Biotinylated secondary antibody is added, followed by the addition of preformed ABC reagent. The target protein is then visualized by incubation in peroxidase substrate and chromogen mixture [(e.g. hydrogen peroxide (sc-203336) and DAB (sc-24982), mixed at the appropriate concentration in 0.1 M Tris-HCl pH 7.6, or use another chromogen of choice (browse our list of HRP and AP Substrates on our website, www.scbt.com)].

The ImmunoCruz® ABC Kit is recommended for use with conventional species-specific biotinylated secondary antibodies. This kit is not species-specific and secondary antibody is not included. For complementary reagents to complete your ABC staining protocol, see also: UltraCruz® Blocking Reagent (sc-516214), hydrogen peroxide (sc-203336) and DAB (sc-24982).

PROCEDURE

All steps are carried out at room temperature in a humidified chamber. Allow all reagents to reach room temperature prior to use. Tissue sections should not be allowed to dry out at any time during the procedure. Use suction to remove reagents after each step, but avoid drying of specimens between steps. Use sufficient reagents to cover the specimens (approximately 100 µl per slide is usually adequate). Use the washing steps suggested to ensure no interference with the reagents at each step.

- Incubate specimens for 1 hour in 5% normal blocking serum in PBS or in UltraCruz® Blocking Reagent (sc-516214). If a conventional secondary antibody is used, blocking serum should ideally be derived from the same species in which the secondary antibody was raised.
- Remove blocking serum or blocking reagent from slides.
- Incubate with primary antibody for 30 minutes at room temperature or overnight at 4° C. Optimal antibody concentration should be determined by titration; recommended range is 0.5–5.0 µg/ml diluted in PBS with 5% normal blocking serum, or diluted in UltraCruz® Blocking Reagent (sc-516214).
- Wash with three changes of PBS for 5–7 minutes each.
- Incubate for 30–45 minutes with biotin-conjugated secondary antibody at approximately 1 µg/ml diluted in either PBS with 1.5% of the appropriate blocking serum, or in UltraCruz® Blocking Reagent (sc-516214).
- Wash with three changes of PBS for 5–7 minutes each.
- Prepare the Avidin-Biotin Complex (ABC reagent) using the A and B reagents from the ImmunoCruz® ABC Kit (sc-516216), 30 minutes prior to using. Mix 50 µl of each A and B reagents in 2.5 ml of PBS and let the mix stand at room temperature for 30 minutes.

PROCEDURE (cont.)

- Incubate for 30 minutes with the ABC reagent. Wash with three changes of PBS for 5–7 minutes each.
- Incubate in peroxidase substrate and chromogen mixture [(e.g. hydrogen peroxide (sc-203336) and DAB (sc-24982), mixed at the appropriate concentration in 0.1 M Tris-HCl pH 7.6, or use another chromogen of choice (browse our list of HRP and AP Substrates on our website, www.scbt.com)] until desired stain intensity develops. Optimal time for staining should be determined independently. Individual slides should be monitored to determine the proper development time.
- Wash sections in deionized H₂O.

Optional: Counterstain slides in Gill's Hematoxylin Solution, No. 2 (sc-24973) for 5–10 seconds and immediately wash with several changes of deionized H₂O.

- When appropriate, dehydrate through alcohols and xylenes as follows: Soak in 90% ethanol twice for 3 minutes each, then 100% ethanol twice for 3 minutes each, then xylenes three times for 10 seconds each. Wipe off excess xylenes. Immediately add 1–2 drops of permanent mounting medium (e.g., Organo/Limonene: sc-45087), cover with a glass coverslip (sc-24975) and observe by light microscopy.

NOTE: For a listing of mounting media for immunohistochemistry, including Organo/Limonene (sc-45087) and ImmunoHistoMount (sc-45086) for immunoperoxidase staining, please browse the Mounting Media for Staining on our website, www.scbt.com.

STORAGE

Store at 4° C. ****DO NOT FREEZE.**** Stable for one year from the date of shipment.

RESEARCH USE

For research use only, not for use in diagnostic procedures.

The Power to Question

SAFETY DATA SHEET

Santa Cruz Biotechnology, Inc.

Revision date 17-Jan-2017

Version 2

1. IDENTIFICATION OF THE SUBSTANCE/PREPARATION AND OF THE COMPANY/UNDERTAKING

Product identifier

Product Name ImmunoCruz® ABC Kit: Reagent A
Product Code SC-516216

Recommended use of the chemical and restrictions on use

For research use only. Not intended for diagnostic or therapeutic use.

Details of the supplier of the safety data sheet

Santa Cruz Biotechnology, Inc.
10410 Finnell Street
Dallas, TX 75220
831.457.3800
800.457.3801
scbt@scbt.com

Emergency telephone number

Chemtrec
1.800.424.9300 (Within USA)
+1.703.527.3887 (Outside USA)

2. HAZARDS IDENTIFICATION

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.122).

Classification

Not a dangerous substance or mixture according to the Globally Harmonized System (GHS)

Label elements

Signal word Not classified
Hazard statements Not classified
Symbols/Pictograms Not classified

Precautionary Statements - Prevention Wash hands thoroughly after handling
Precautionary Statements - Response IF exposed or concerned: Get medical advice/attention

Hazards not otherwise classified (HNOC)

Hazards not otherwise classified (HNOC) Not applicable

Other Information

NFPA	Health hazards	-		HMIS	Health hazards	-
	Flammability	-			Flammability	-
	Stability	-			Physical hazards	-
	Physical and chemical properties	-			Personal protection	-

3. COMPOSITION/INFORMATION ON INGREDIENTS

Molecular Weight No information available
Formula No information available

Chemical Name	CAS No	Weight %	Oral LD50	Dermal LD50	Inhalation LC50
Proprietary ingredients	-	>98	-	-	-

4. FIRST AID MEASURES

First Aid Measures

General advice	Consult a physician if necessary. Remove to fresh air.
Eye contact	Wash with plenty of water.
Skin Contact	Wash skin with soap and water.
Inhalation	Remove to fresh air If breathing is difficult, give oxygen If not breathing, give artificial respiration
Ingestion	Never give anything by mouth to an unconscious person. Clean mouth with water.

Most important symptoms and effects, both acute and delayed

Symptoms	No information available.
----------	---------------------------

Indication of any immediate medical attention and special treatment needed

Note to physicians	Treat symptomatically.
--------------------	------------------------

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media

Suitable Extinguishing Media	Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
Unsuitable Extinguishing Media	None.

Specific hazards arising from the chemical

Specific hazards arising from the chemical	No information available.
Hazardous combustion products	No information available.

Explosion data

Sensitivity to Mechanical Impact	No information available.
Sensitivity to Static Discharge	No information available.

Protective equipment and precautions for firefighters

Protective equipment and precautions for firefighters	As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
---	--

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions	Ensure adequate ventilation, especially in confined areas.
----------------------	--

Environmental precautions

Environmental precautions	See Section 12 for additional Ecological Information.
---------------------------	---

Methods and material for containment and cleaning up

Methods for containment	Prevent further leakage or spillage if safe to do so.
Methods for cleaning up	Pick up and transfer to properly labeled containers.

7. HANDLING AND STORAGE

Precautions for safe handling

Advice on safe handling	Handle in accordance with good industrial hygiene and safety practice.
-------------------------	--

Conditions for safe storage, including any incompatibilities

Storage Conditions	Keep containers tightly closed in a dry, cool and well-ventilated place. Store at 4 °C.
Incompatible materials	None known based on information supplied.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure Guidelines	This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.
---------------------	---

Appropriate engineering controls

Engineering Controls	Showers Eyewash stations Ventilation systems
----------------------	--

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear safety glasses with side shields (or goggles).
Skin and Body Protection	Wear protective gloves and protective clothing.
Respiratory protection	If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.
General Hygiene Considerations	Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State	liquid
Appearance	No information available
Odor	No information available

<u>Property</u>	<u>Values</u>
pH	No information available
Melting point/freezing point	No information available
Boiling point	No information available
Flash point	No information available
Density	No information available
Evaporation rate	No information available
Upper flammability limits	No information available
Lower flammability limit	No information available
Vapor pressure	No information available
Vapor density	No information available
Specific gravity	No information available
Water solubility	No information available
Solubility in other solvents	No information available
Partition coefficient	No information available
Autoignition temperature	No information available
Decomposition temperature	No information available
Kinematic viscosity	No information available
Explosive properties	No information available
Oxidizing properties	No information available

10. STABILITY AND REACTIVITY

Reactivity	Not applicable
Chemical stability	Stable under recommended storage conditions.

Possibility of Hazardous Reactions	None under normal processing.
Hazardous polymerization	No information available.
Conditions to avoid	Extremes of temperature and direct sunlight.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	None known based on information supplied.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure

Inhalation	No data available.
Eye contact	No data available.
Skin Contact	No data available.
Ingestion	No data available.

Information on toxicological effects

Symptoms	No information available.
----------	---------------------------

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Chronic Toxicity	No information available.
------------------	---------------------------

Numerical measures of toxicity - Product Information

Unknown acute toxicity	No information available
------------------------	--------------------------

12. ECOLOGICAL INFORMATION

Ecotoxicity	May cause long lasting harmful effects to aquatic life
-------------	--

0% of the mixture consists of components(s) of unknown hazards to the aquatic environment.

Persistence and degradability	No information available.
Bioaccumulation	No information available.
Mobility	No information available.

13. DISPOSAL CONSIDERATIONS

Disposal of wastes	Disposal should be in accordance with applicable regional, national and local laws and regulations.
Contaminated packaging	Do not reuse container.

14. TRANSPORT INFORMATION

DOT Not regulated

IMDG Not regulated

IATA Not regulated

15. REGULATORY INFORMATION

International Inventories

All of the components in the product are on the following Inventory lists

No information available

X - Listed

TSCA - United States Toxic Substances Control Act Section 8(b) Inventory

DSL/NDSL - Canadian Domestic Substances List/Non-Domestic Substances List

EINECS/ELINCS - European Inventory of Existing Chemical Substances/European List of Notified Chemical Substances

ENCS - Japan Existing and New Chemical Substances

IECSC - China Inventory of Existing Chemical Substances

KECL - Korean Existing and Evaluated Chemical Substances

PICCS - Philippines Inventory of Chemicals and Chemical Substances

US Federal Regulations**SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372.

SARA 311/312 Hazard Categories

Acute health hazard	No
Chronic Health Hazard	No
Fire hazard	No
Sudden release of pressure hazard	No
Reactive hazard	No

CWA (Clean Water Act)

This product does not contain any substances regulated as pollutants pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

US State Regulations**California Proposition 65**

This product does not contain any Proposition 65 chemicals.

U.S. State Right-to-Know Regulations

This product does not contain any substances regulated by state right-to-know regulations
